## SPECIAL OFFERING OF FINE CATTLEYA HYBRID SEEDLINGS

Orchid catalogs come in such numbers to the Orchid fancier that the problem of making a selection must be confusing, particularly to those less well informed in genetics, and in the history or background of the parent stock used.

Herewith we submit a limited list from our large stock of Cattleya hybrid seedlings which we feel will meet the constantly more exacting standards of the future. The parent stock used is distinctive and proven and these seedlings are presented with a full measure of confidence; we expect top quality results. These seedlings are especially well grown. They are strong and well established in 2" pots. This is an opportunity to add to your collection hybrids of various colors from carefully selected stud stock; thrifty plants at reasonable prices.

We offer them at \$3.00 each, or one each of the entire 20 crosses, value \$60.00, for \$50.00. A 10% discount is offered on purchases of 10 or more plants. Plants offered subject to prior sale. California purchasers add 3% sales tax.
